

# JOB OPPORTUNITY

Job Opportunity Bulletin:

#08-041

Final Filing Date:

October 27, 2008  
or Until Filled

Position:	Salary:	Location:
Senior Structural Engineer	\$8,500 - \$10,326	Office of Statewide Health Planning & Development Facilities Development Division 1600 9 <sup>th</sup> Street, Room 420 Sacramento, CA 95814

## General Statement:

Under direction of the Supervisor, Health Facilities Review, the Senior Structural Engineer assists District Structural Engineers with the following: research, development, maintenance, adoption, and implementation of administrative regulations and building standards for health facilities in the California Building Standards Code; evaluating plan review work for contract assignments to determine the cost to perform review; development and implementation of a program for reporting the seismic compliance status of general acute care hospital buildings in the State of California. The Senior Structural Engineer also acts as an expert technical advisor; responds to inquiries on code interpretation and application relating to structural matters; conducts technical oversight review of plans completed by staff to ensure consistency, quality, and compliance with the California Building Standards Code; and develops and maintains Code Application Notices and Policy Intent Notices.

## Duties:

- Assist with developing, maintaining, adopting and implementing administrative and building standards for the California Administrative Code and California Building Standards Code.
- Review and recommend nationally accepted model building codes and standards for adoption by the Division for construction of hospitals and skilled nursing facility buildings.
- Maintain and update existing building standards upon new legislation and latest architectural and engineering standards and model codes, research studies and advancements.
- Develop and maintain Policy Intent Notices, Code Application Notices, and OSHPD policies and procedures.
- Perform technical oversight review of plans and construction observation work to ensure a high level of consistency, quality of review, compliance with the standards and requirements of the California Building Standards Code.
- Evaluate and assist in development of performance qualification criteria for contracting, structural plan review services.
- Assist with development and implementation of the program for reporting seismic compliance status of general acute care hospital buildings (SB 1661).
- Acts as technical advisor and responds to inquiries on code interpretation and application relating to structural issues.

## Desirable Qualifications:

- Familiarity with the California Building Standards Code as it relates to the construction of health facilities.
- Demonstrates a commitment to performing duties in a service-oriented manner.
- Communicates well with others and handles sensitive issues with tact and diplomacy.
- Excellent writing and oral communication skills.
- Maintains good work habits, follows established policies, procedures and interpretations.
- Demonstrates a commitment to the Office's and Division's mission, vision and goals.
- Maintains a current, comprehensive working knowledge of State business practices, codes, regulations, policies, interpretations, materials and methods of construction applicable to your specific areas of enforcement.
- Clean driving record. *Must submit an official driving history from the California Department of Motor Vehicles prior to appointment.*
- Demonstrates a commitment to performing work in a confidential manner, when appropriate.

## Who May Apply:

Applications will be accepted from individuals currently in the class or who have list, transfer or reinstatement eligibility to the class. Only the most qualified individuals will be selected for an interview. Appointment is subject to SROA/surplus policies.

Interested individuals should submit a resume and a State Examination and/or Employment Application, STD. 678 to:
